

School Improvement Planning

Principal Action Paradigm: Culture, Systems & Learning

What is the Problem of Practice?	Where are we now?	What is our Theory of Action to address this Problem of Practice?	Who does it impact? (Students, staff & school)	Where do we want to be next year? Five years from now?
Culture: Creating a safe and positive environment with a unified and common purpose.				
Systems: Building effective structures and systems that support the culture and lead to on-going improvement efforts.				
Learning: Creating a culture of learning and professional growth for all stakeholders.
